CHANDA ROA MANAOIS  
Grades & Sections observed: V- AMORSOLO

Guide Questions:

1. What are the relevant experiences you gained during the 3-day observation period in your respective cooperating schools?

- I have so many things to learn, and my observation experience has taught me how to learn from my mistakes rather than letting them eat away at me. I learned something from my cooperating teacher and from the students for at least 3 days, and being open to this and being vulnerable allowed me to grow, adapt, and think on my feet! Having these experiences is the true life of a teacher.

2. Comment on your observations about the assessment tools, classroom management, teachers' actuations/behavior/demeanor; relationship with fellow teachers, higher authorities, other school personnel; relationship with the students, their methodologies, strategies, relationship with the students' parents (if applicable);

- I have so many things to say about my experience in my 3 days of observations. My first comment is that i have a very good and innovative cooperating teacher because she makes her lesson more attractive and catchy to the students in learning mathematics she can also manage the students even she is busy doing her administrative works sounds good but some of the other teacher use the unnecessary word in discipline the students like shouting, saying bad words or laugh at them inside and outside the classroom. in terms of the other personnel and administration inside the school premises is very organized and nice . They keep in touch with each other to have better decision making.

Apropos the stipulations under the following legal documents:

A.) Code of Ethics for Professional Teachers (BPT Resolution No. 435 s. 1998) She is a good example of a good and compassionate teacher. She can manage her classroom, with dignity and without using embarrassing words for the students. She is nice in terms of socializing with other people and she has no bad records and she has the power to influence other co-teachers to be a good teacher also. B.) Magna Carta for Public School Teachers (RA 4670)

We are professional and future teachers know that we have the right to fight for our rights as a teacher in public schools my CT she knows her rights in terms of

socializing to the administrative and co teachers inside the school premises the other

teacher that lower than her in terms of position they always give her respect at all time and also she do the same.

C.) Philippine Professional Standards for Teachers (DepEd Order 42 s. 2017) For me my Cooperating Teacher is one of the product of PPST because she is more than enough to meet the standard of being a teacher.
