

FIELD STUDY 6
Deployment Narrative Report

Name CASTILLO ,KAREN C. :

Year & Section: 3rd year & BEED 03-1

School Assigned: PANTAL ELEMENTARY SCHOOL

Date of Deployment: FEB , 27 2023

Cooperating Teacher: VICTORIA BARTE

Grades & Sections observed: GRADE 4 & NEPTUNE

Guide Questions:

1. What are the relevant experiences you gained during the 3-day observation period in your respective cooperating schools?

- I believe that teaching should spend 8 hours teaching the child, for me teaching is an instruction or delivering a particular skill or subject or something that someone tells you to do .For Teaching in this case may refer to showing or explaining to a student how to do something. When I was deployed to Pantal Elementary School, my first day was to observe the surroundings. They are very clean and you won't see anything messy. The children have the discipline to throw garbage in the right place , the students are respectful and all the teachers they pass in the school are great, and the students wear the correct uniform as well as the teachers. Teacher Victoria, she makes the children sing before they start their lesson and while she is singing she prepares things to discuss, after the children sing she will ask what their last lesson is, and she will discuss it little by little and she will give a strategy related to the next topic. and there is another teacher I have observed that is teacher Mareluo, I like her motivation to the children and the strategies she uses in teaching and she gets the attention of the children and there is another teacher daisy, teacher daisy is the one to observe she gave him the activity immediately without explaining and discussion. and she won't handle the children inside the classroom anymore, he lets them go outside and we stand and he sells food inside the class and during class time. but teacher Victoria and Mariluo are very nice to teach, the two of them are the ones I observed that they get the attention of the children. And also there is another one, teacher Maryna,she teaches well but the children are afraid of her because she scares them and the children almost don't want to recite, but teacher marilou

and victoria are very nice to teach, unlike teacher Maryn and Daisy. teachers victoria and marilou, they get the children's attention and they participate in activities and performances

2. Comment on your observations about the assessment tools, classroom management, teachers' actuations/behavior/demeanor; relationship with fellow teachers, higher authorities, other school personnel; relationship with the students, their methodologies, strategies, relationship with the students' parents (if applicable);

- I observed is that they are very traditional in the instructional materials they make, the children learn something when they see IMs and read them, they listen more and participate in the activities and performances, teacher victoria will ask the children if they learned something from their discussion and after asking questions, it will give an activity to the children, i can say that they never let a children without teaching them something additionally , in grade 4 neptune at Pantal elementary school the teachers used traditional assessment method , such as writing , responding , and also copying , there are many different type of strategies. which is used to teach children so that they can get their attention and charm them.

Apropos the stipulations under the following legal documents:

A.) Code of Ethics for Professional Teachers (BPT Resolution No. 435 s. 1998)

- may three days of observation at Pantal Elementary School , i observe that the teachers have a good communication with students and also the parents , and the teachers very effortless in their IMs for them to teach it to children, and they give examples or ideas to children

B.) Magna Carta for Public School Teachers (RA 4670)

- When I saw my CT teacher victoria i was so happy because she accepted and she taught the children gently, her voice was soft to teach, she is very effortless in her ims, and she is very good at teaching, and the child gets what she teaches quickly.

C.) Philippine Professional Standards for Teachers (DepEd Order 42 s. 2017)

-
